

SMA Fixed Torque Wrench in Click Type With 5/16 Bit that is Preset to 4 in-lbs

Fairview Microwave's SMA torque wrench, part number 74Z-0-0-79, is a 5/16 bit click type that is preset to 4 in-lbs and designed to use with SMA connectors. This click type SMA torque wrench allows accurate mating force when assembling and disassembling a variety of RF coaxial connectors. The unique feature of click type RF wrenches is that once the preset torque value is reached, they will "click" which can be heard and felt, followed by a slight bend at the head, alerting to the user to stop applying torque on the connector. Fairview Microwave's click type SMA torque wrenches are in-stock and also available for a wide variety of other RF connectors, all of which ship the same day. These RF torque wrenches are calibrated at time of manufacture in compliance with ANSI/NCSL Z540 or other internationally recognized standard.

Configuration

Torque Type	Fixed
Design Type	Click
Hex Size	5/16 in
Torque Setting	4 in-lbs [0.45 Nm]

Size

Length	4.53 in [115.06 mm]
Handle Diameter	0.571 in [14.5 mm]
Weight	0.20371 lbs [92.4 g]

Compliance Certifications (see [product page](#) for current document)

Notes:

- Do not use on damaged connectors.
- The torque wrench is verified at the factory and cannot be calibrated by the user. We cannot re-calibrate the unit.
- If a wrench has not been used recently, actuate the wrench by clicking the wrench head back and forth several times before use. Clicking the wrench head back and forth spreads lubricant through the internal mechanism to improve wrench performance.

SMA Fixed Torque Wrench in Click Type With 5/16 Bit that is Preset to 4 in-lbs from Fairview Microwave is in-stock and available to ship same-day. All of our RF/microwave products are available off-the-shelf from our ISO 9001:2008 certified facilities in Allen, Texas. Fairview Microwave is RF on-demand.
