

Slide-On BMA Jack to BMA Jack Slide-On Adapter

Slide-on BMA jack to BMA jack slide-on adapter part number FMAD1105 from Fairview Microwave is in-stock and ships same day. This Fairview BMA to BMA adapter has a jack to jack gender configuration and is built of durable stainless steel. FMAD1105 BMA jack to BMA jack adapter operates to 22 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.2:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
