Miter RA 2.4mm Male to 2.92mm Female Adapter with Passivated Stainless Steel Body

Miter RA 2.4mm male to 2.92mm female adapter part number FMAD1205 from Fairview Microwave is in-stock and ships same day. This Fairview 2.4mm to 2.92mm adapter has a male to female gender configuration and is built of durable stainless steel. FMAD1205 2.4mm male to 2.92mm female adapter operates to 40 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.25:1 maximum. The 2.4mm connector mates mechanically with commercially available 1.85mm (V) connectors. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. This miter right angle 2.4mm to 2.92mm adapter allows for easier connections in tight spaces.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
