The FMC0202100LF-24 SMA male to SMA male cable assembly operates to 2 GHz. The double shielding of this Fairview cable assembly provides excellent shielding effectiveness of better than 90 dB. General purpose flexible LMR-100 cable assemblies are built using high quality connectors and Times Microwaves cable. These cable assemblies are built using double shielded flexible cable providing excellent shielding greater than 90 dB. These general purpose cables are intended for, lab use, equipment interconnect and anywhere that lower insertion loss and greater shielding effectiveness than standard RG type cable is required.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other RF cable assembly value added services including connector orientation or clocking, heat shrink booting and labeling are also available. RF testing can also be performed to document the electrical performance of your cable assembly.
