Slide-On BMA Jack 2 Hole Flange to RA Slide-On BMA Jack 2 Hole Flange Cable Tinned Copper RG402 Type .141 Coax in 50CM Length

The BMA jack slide-on 2 hole flange to RA BMA jack slide-on 2 hole flange 50 cm cable using Tinned Copper RG402 type .141 coax, part number FMCA2915-50CM, from Fairview Microwave is in-stock and ships same day. This Fairview BMA to BMA cable assembly has a jack to jack gender configuration with 50 ohm semi-rigid FM-SR141CUTN-STR coax. Fairview Microwave's semi-rigid RF cable assemblies are ideal for high performance applications and can be formed, using proper tooling, to the routing pattern required. The FMCA2915-50CM BMA jack to BMA jack cable assembly operates to 12.4 GHz. The right angle BMA interface on the FM-SR141CUTN-STR cable allows for easier connections in tight spaces. Our RF cable assembly with BMA 2 hole flange interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other RF cable assembly value added services including connector orientation or clocking, heat shrink booting and labeling are also available. RF testing can also be performed to document the electrical performance of your cable assembly.
