

BNC Plug Non-Magnetic Connector Crimp/Solder Attachment for RG58, RG141 Cable

BNC Plug Non-Magnetic Connector Crimp/Solder Attachment for RG58 and RG141 Cable, part number FMCN45879, from Fairview Microwave is in-stock and ships same day. This BNC plug connector operates up to a maximum frequency of 4 GHz and offers good VSWR of 1.3:1. Fairview's Non Magnetic connectors are manufactured with materials that are especially adapted to non magnetism. Our non-magnetic connectors have a susceptibility of around 10^{-5} , as opposed to 10^{-2} for standard connectors made of brass/nickel materials. As a result, our non-magnetic connectors are transparent to the magnetic field, which means no field distortion and a higher Signal-to-Noise Ratio (SNR).

Fairview's BNC plug connector FMCN45879 datasheet specifications and outline drawing are shown in this PDF below. Our extensive offering of RF, microwave and millimeter wave connectors allows designers to configure and customize their signal connections however they like. From providing an I/O for a board design to creating a custom cable assembly configuration, Fairview Microwave has a connector solution to meet your needs. Fairview Microwave also has the expertise to build your custom cable assemblies for you and ship them same-day.
