

Coaxial RF GSG Probe with 800 Micron Pitch Up to 20 GHz with 3.5mm Interface and Cable Mount

Coaxial RF GSG probe, part number FMPB1000, from Fairview Microwave is in-stock and ships same day. This probe is part of a full family of GS (SG) and GSG probe versions that are well suited for PCB probing, device characterization and RF probing on test fixtures. The probes easily connect to a RF coaxial cable to connect RF test equipment, including network analyzers, spectrum analyzers, signal sources or BERTs. While they are designed to be used manually with a coaxial cable assembly, they can also be used with Fairview Microwave's optional probe positioner for added stability and probe repeatability. Differential measurements are also possible by using pairs of RF GS probes in tandem with skew matched cable assemblies.

Fairview's coaxial RF GSG probe datasheet specifications and outline drawing are shown in this PDF fellow. Our extensive offering of RF, microwave and millimeter wave interconnects allows designers to configure and customize their signal connections however they like. From making consistent RF probe measurements or probing and characterizing PCBs, Fairview Microwave has the right probing and connection solutions to meet your needs.

Electrical Specifications

Description	Min	Typ	Max	Units
Frequency Range	DC		20	GHz
Impedance		50		Ohms
Return Loss			10	dB
Insertion Loss			0.5	dB

Mechanical Specifications

Probe

Configuration GSG
Pin Type Pogo Pin
Pitch 800 µm [0.03 in]

Connector

Connector Type 3.5mm Female

Size

Length 1.18 in [29.97 mm]
Weight 0.008 lbs [3.63 g]

Mechanical Specification Notes:

3.5mm Female is compatible with 3.5mm(M), 2.92mm(M) and SMA(M) cable connections

Environmental Specifications

Compliance Certifications (see [product page](#) for current document)

Plotted and Other Data

Notes:

Configuration:

- Single Channel
- Cable Mount
- GSG Tip
- 3.5mm Female Connector
- 800 µm Pitch

Features:

- 20 GHz Performance
- Good Return Loss of 10 dB
- Convenient Cable Mount
- Gold Plated GSG Contacts

Applications:

- S-parameter Probing
- RF Coaxial Probing
- Signal Integrity Measurements
- Device Characterization
- Coplanar Waveguide Probing

Coaxial RF GSG Probe with 800 Micron Pitch Up to 20 GHz with 3.5mm Interface and Cable Mount from Fairview Microwave is in-stock and available to ship same-day. All of our RF/microwave products are available off-the-shelf from our ISO 9001:2008 certified facilities in Allen, Texas. Fairview Microwave is RF on-demand.
