

Precision 2.92mm Male to N Male Adapter

Precision 2.92mm male to type N male adapter part number SM3140 from Fairview Microwave is in-stock and ships same day. This Fairview 2.92mm to type N adapter has a male to male gender configuration and is built of durable stainless steel in a precision design. SM3140 2.92mm male to type N male adapter operates to 18 GHz. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. The Fairview Microwave RF adapter provides excellent VSWR of 1.15:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
