

## **Precision 3.5mm Male to 7mm Sexless Adapter**

Precision 3.5mm male to 7mm sexless adapter part number SM3358 from Fairview Microwave is in-stock and ships same day. This Fairview 3.5mm to 7mm adapter has a male to sexless gender configuration and is built of durable stainless steel in a precision design. SM3358 3.5mm male to 7mm sexless adapter operates to 18 GHz. The 3.5mm connector mates mechanically with commercially available SMA and 2.92mm (K) connectors. The Fairview Microwave RF adapter provides excellent VSWR of 1.15:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connnector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
