# TNC Male Right Angle to BNC Male Right Angle Cable in 36 Inch Length Using RG223 Coax

The RA TNC male to RA BNC male cable using RG223 coax, part number FMCA2698-36, from Fairview Microwave is in-stock and ships same day. This Fairview TNC to BNC cable assembly has a male to male gender configuration with 50 ohm flexible RG223 coax. Fairview Microwave's flexible RF cable assemblies are ideal for applications where tight bends and continual flexure are required. The FMCA2698-36 TNC male to BNC male cable assembly operates to 3 GHz. The right angle TNC and right angle BNC interfaces on the RG223 cable allow for easier connections in tight spaces. The double shielding of this Fairview cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other RF cable assembly value added services including connector orientation or clocking, heat shrink booting and labeling are also available. RF testing can also be performed to document the electrical performance of your cable assembly.
