

Precision SMA Male to N Female Adapter

Precision SMA male to type N female adapter part number SM4262 from Fairview Microwave is in-stock and ships same day. This Fairview SMA to type N adapter has a male to female gender configuration in a precision design. SM4262 SMA male to type N female adapter operates to 18 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.12:1 maximum. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
